25X1 25X1	Approved For Release 2003/05/28 : CIA-RDP79B01709A003300060005-6	25X
L	The Deputy Chairman requested the NRO to develop the two new cases and provide a briefing on the capabilities of the three cases so that a decision could be made as to which case has the better potential for satisfying our immediate and near-future intelligence needs as assessed at this time. PRELIMINARY OAK REPORTING	
25X1A 25X1D	the Preliminary OAKS. He stated that publishing Preliminary OAKS did not slow down or impact on the OAK processing at all. He did indicate that NPIC was in the process of reviewing the Preliminary OAKS to insure that they are short and concise. He said that NPIC planned in the future to have queried the NPIC consultant whether any consumers were being asked their requirements for such a document.	25X1/ 25X1/
	MAJOR ALLMAN's PAPER ON FIRST PHASE REPORTING 6. Discussion of Maj. Allman's paper on first phase reporting was begun with a statement from the Deputy Chairman that he thought this was a very good paper. He stated that he invisioned the ICRS minimum requirement as consisting of the Photo Reference Line with the possible inclusion for more detailed readout of perishable or high interest requirements such as comprehensive readout of the Pueblo, if located. The CIA Member commended the Air Force representative on his paper and noted that he	25X 25X

ICRS-M-6	
agreed with the comments on the collection priority not influencing the readout priority and also the influence that automation has had on Phase I and II reporting further stated that he felt the paper may have leaned to heavily on the indications aspect. CIA proposed that we prepare a statement of ICRS requirements and send it to EXSUBCOM for inclusion in their Phase I and II requirement stated the ICRS Staff would prepare a paper detailing ICRS readout requirements for presentation to ICRS at an early date.	25
SOUTH CHINA/NORTH VIETNAM	
7. DIA provided the weekly report of acceptable data base coverage of high priority targets in North Vietnam. There were no changes recommeded to the South China/North Vietnam priorities list.	
CUBA	
8. The Deputy Chairman briefed the members on the area coverage acquired for the 56-day period ending 14 July 1968. The five missions flown during this period obtained 91% area coverage.	
TARGET UPDATE	
9. The DIA member referred to the previous weekly update sheet and stated that DIA interpretation of coverage on the Targets did not support the deletion or inactivation of 7A 1076A, 7A 1196D, 7A 2049, and II 558. stated these would be included as reactivates on next weeks update. The weekly update sheet was distributed to the members with a request that the Staff be notified of any changes or nonconcurrances by COB 18 July 1968.	
MISSION 1104 MC&G REQUIREMENT	
10. Deputy Chairman reminded the members that the request by the MC&G Working Group for an early launch of 1104 had been denied and that it would next Summer until consideration for this type of mission would be
